**THANK YOU** ~ for supporting the AIDS Committee of London

*AIDS still has a devastating impact on the lives of people in our community. To help reduce that impact, the AIDS Committee of London provides support to people and families affected by HIV. Support ranges from counselling and referrals to practical assistance like our food bank and transportation for medical services. For now, prevention is the only answer.*

*Through education and outreach programs, the AIDS Committee of London is working to reduce the number of new HIV infections. We provide people with the information and resources they need to make safer choices and protect themselves.*

*By supporting A Taste For Life, you'll help ensure that we can continue to offer these programs and services for everyone who needs them.*

*Executive Chef ~ Tim D'Souza  
Innkeeper ~ Christine Kropp*
